- Vol. 2 The article by Tom May "The "Tea Stores" Tokens and their connection with S. Peek", had to be edited and in the rush to print, Tom did not have the chance to examine the editorial changes. On page 62 Samuel and Richard Peek incorrectly became brothers of Edward Campbell. The word "brothers" should read "brother" both in columns 1 and 2. The errors were editorial and not the authors.

To ensure that this does not recur, a policy of submitting "proofs" to all authors before publication has now been inaugurated.

I would like to apologise to Tom May for any embarrassment my error may have caused him.

J. Sharples

**Names:-** Some typing errors have crept in with names. Poor Stephen Prior has been worst hit - Steven Prior and Stephan Prior. Jim Noble has only had one entry as Nobel so he too has a 100% failure rate. Please let us know if your name is incorrectly entered.
